

# First Announcement

The European Severe Storms Laboratory and  
the Romanian National Meteorological Administration  
invite you to:

## ECSS2023 11<sup>TH</sup> European Conference on Severe Storms in Bucharest, Romania 8-12 May 2023

The scope of the conference covers all aspects of severe convective storms. Researchers, forecasters, risk and emergency managers, and others dealing with severe storms from around the world are invited to submit contributions.

### The following sessions are foreseen:

- Convective storm and tornado dynamics
- Numerical modelling of storms, storm-scale data assimilation
- Impact of storms on society, impact mitigation and early warning systems
  - Flash floods
- Forecasting and nowcasting of storms
  - Severe weather forecaster training
- Satellite studies of storms and their environment
- Radar studies of storms and their environment
- Storm microphysics, electrification, lightning and hail
- Storm climatology, risk assessments and relation to climate change
- Collection of storm data, historical events and damage assessments

Registration and abstract submission will open

on 20 October 2022

Deadline for abstract submission

is 12 January 2023
